

COMMUNITY UPDATE

October 2021

Hello Neighbors,

Mission Rock is a 12-year culmination of community input and city planning to transform Parking Lot A into an exciting waterfront, mixed-use neighborhood. Phase one construction, currently underway, includes two residential and two office buildings, ground floor retail, and a major five-acre waterfront park on the northern end of the site. We are pleased to present you with project updates.

Construction Updates

Buildings

Block A (residential): Structure has begun to go vertical. The process to construct each level consists of wood framing, rebar installation, forming, and concrete pours.

Block B (life science): Excavation work is nearing completion and concrete foundation work will follow. Steel erection is projected to begin at the end of the year.

Block F (residential): Estimated to break ground during the winter.

Block G (future home of Visa): The building façade erection continues along with mechanical, electrical, and plumbing work.

General construction can occur during the hours of 7 a.m. to 8 p.m., seven days a week, including holidays.

Pile driving will occur on weekdays between approximately 8 a.m. and 5 p.m., excluding holidays. Scheduling exceptions may be considered in case of major weather events or other extraordinary circumstances that prevent pile driving from proceeding.

The Mission Rock team continues to work closely with noise and vibration consultants, neighbors and stakeholders during on-site activities. Please contact the team if you have questions or observations.

Site-wide

Infrastructure work for utilities, Lightweight Cellular Concrete (LCC) pours, and off-hauling all continue on-site.

Third Street Underground Utility Work

Underground utility work on Third Street between Channel Street and the Third Street Bridge is a multiphase scope of work that includes storm drains, sanitary sewer, low-pressure water, gas, joint trench, and the Auxiliary Water Supply System (AWSS). Intermittent work on Third Street is anticipated to continue through quarter one of 2022. Street lane configurations on Third Street shift as work progresses. One configuration temporarily closes the eastern northbound traffic lane and sidewalk (closest to the construction site). The other configuration temporarily closes the middle northbound and southbound traffic lanes and the northern crosswalk on Channel Street.

Installations of LCC formwork and utility piping and vaults

Volunteering with Rebuilding Together

This past month, the Mission Rock team volunteered with Rebuilding Together to help update the exterior play area at the Wu Yee Children's Services center in the Bayview. The team assisted with the demolition of the existing play area and the installation of a new sand box, interactive wall with chalkboard panels, and much more. Rebuilding Together is a nonprofit community revitalization organization that has over 100 offices across the United States. Rebuilding Together San Francisco provides free repair and renovation programs for low-income, elderly, and disabled San Franciscans and for nonprofit and community facilities.

Mission Rock Values Statement and Community Pillars

Mission Rock is a shared dream of what a neighborhood means: welcoming to all, a launchpad for opportunity and innovation, a vision of connectivity, and a place where breathtaking architecture and design inspire unique social experiences. Our Community Pillars state the foundation of our commitments to each other, to the surrounding community, to this new neighborhood we are building together, and to the people who will make Mission Rock their home, their workspace, and their place of recreation.
