## Upcoming Night Work

May 18, 2022

The start of the night work for lightweight cellular concrete (LCC) pours has been postponed and will now begin on Monday, May 23. This work will take place on weeknights through Friday, June 3 from 8:00 P.M. until 1:00 A.M. within the jobsite.

Webcor will work closely with the team to limit noise and ensure it is within allowable levels. Task lighting will be positioned down and away from adjacent buildings. If you have any questions or concerns about this particular work, please contact Jose Martinez, Project Engineer at Webcor, at (510) 496-1306 or [jose.m@webcor.com](mailto:jose.m@webcor.com).
